The following instructions show you how to make a new connection icon to connect you to the LAU remote access server via a phone line.

1. On the Desktop, right-click the Internet Explorer icon, then click on Properties. (If there is no Internet Explorer icon on your Desktop, go to Start Menu, Settings, Control Panel, Internet Options.)

2. Press the Setup button.

3. Choose I want to set up my Internet manually, or I want to connect through a local area network (LAN) and press Next.

4. Choose I connect through a phone line and modem and press Next.

5. Select your modem (usually it shows the one modem installed on the PC) and press Next.
