LAU dial-up service: connection instructions for Windows XP

The following instructions show you how to make a new connection icon to connect you to the LAU remote access server via a phone line.

1. On the Desktop, right-click the Internet Explorer icon, then click on Properties. (If there is no Internet Explorer icon on your Desktop, go to Start Menu, Settings, Control Panel, Internet Options.)

2. Press the Setup button.

3. Upon pressing Setup a wizard will open, press Next.

4. Choose Connect to the Internet and press Next.

5. Choose Connect using a dial-up modem and press Next.
6. Type the name of the new connection (e.g. LAU Connection) and press Next.

7. Type the phone number: 791620 and press Next.

8. Fill in the user name and password according to your e-mail. For example, if your e-mail is joe.smith@lau.edu.lb the user name will be joe.smith and the password is your e-mail password. Confirm the password and press Next.

9. Check the Add a shortcut to this connection to my desktop box and press Finish.

10. Now follow the instructions for configuring your proxy settings in your browser.
