1. Launch Netscape.

2. From the Edit menu, select Preferences.

3. Double click on the Advanced button to view the choices, then click on Proxies, then click on the Manual Proxy Configuration radio button, then click View.

4. In the boxes under HTTP, Security and FTP type in the address of the proxy server to use: proxyout.lau.edu.lb. In the port boxes type 8080, then click OK.

You are now ready to connect to LAU.
